

Safety Chip EWF Products

Playground safety is as important as playground fun. Certified playground mulch is a safe, non-toxic, recyclable and popular option for playground surfaces. We are now manufacturing Safety Chip and Safety Chip Select which are both engineered wood fibers certified by IPEMA.

Safety Chip is a local hardwood chip perfect for any playground. Safety Chip Select is a premium chip manufactured from mill wood. Both products are:

- All Natural • Recyclable • Non-Toxic
- Safe • Competitively priced • Compostable
- ASTM F1292-04 Impact-Fall Height
- ASTM F1951-14 Wheel Chair Accessibility (Safety Chip SELECT Only)

Description

Engineered wood fiber is a popular choice for budget conscious playgrounds. Engineered wood fiber will require on-going maintenance and occasional topping off during its lifetime. This maintenance will help to maintain the recommended compacted material depth, thus keeping the surface compliant with applicable standards.

Benefits

- Wood fiber is non-toxic, and does not contain paint, chemicals, or additives. It contains minimal bark, and is free of twigs, leaf debris, and other organic material.
- Carefully following the installation details allows engineered wood fiber to possibly be installed by volunteer labor
- Engineered wood fiber gives your playground an attractive, natural look
- Economical initial cost
- Loose fill materials aid in the protection of children who experience lateral falls

Basic Specification

- Product is manufactured of size-controlled softwoods and or hardwoods which average 1"-2" in length and contain a maximum of 15% fines to aid in compaction.
- This product meets all applicable ASTM standards. For more information, please refer to our complete product specification.

These products are in stock at our Burnsville store, or are available for delivery. As you begin quoting playground projects this spring, please consider using our Safety Chip products. Call our office for more information on these products.
