HEADQUARTERS**

Rock Hard Landscape Supply's history is a culmination of passionate hard work and dedication. Brian Feist started his landscaping company as a lawn mowing business during his middle school years. Over the next fifteen years, he grew it from a lawn mowing service company to a landscape installation company, and in 2008 he opened the first Rock Hard Landscape Supply store front. Now with three locations, Rock Hard has grown to be a premier hardscape supply yard in the Minneapolis area. We take pride in our quality landscape products and the excellent customer service we offer our customers.

Your outdoor space is as important as the inside of your home. Dare to make your dreams a reality with the products available at Rock Hard Landscape Supply. From a stunning patio, to an outdoor kitchen as an entertaining paradise, or a serene water feature, find the inspiration for your next landscape project in our catalog. Taken by our customers, the photos in this catalog take the pallets from our landscape yard and show the endless possibilities that can become your outdoor living space.

Our experienced staff makes us the right choice to work with on projects of all sizes. Their industry knowledge is unmatched by our competitors giving them the tools to help in all phases of your project. From our sales team, to our yard staff, to our delivery team, our goal is to make sure our service to our customers is the best.
